International Student Resources

The mission of First-Year Experience & Transition Programs is to engage, empower, and support all students in and out of the classroom. International students can face additional challenges as they adapt to the U.S. academic system. FYE&TP is here to help. We offer one-on-one coaching, Study Stop tutoring, and academic success workshops specifically designed for international students.

COACHING APPOINTMENTS

International students encounter a unique set of issues when adjusting to the U.S. academic system. An academic success coach is here to help!

Some students work with their coach to make long term plans and continue meeting with the coach throughout their academic careers. A coach can also work with you to help understand the differences between your previous education system and the U.S. college system.

All undergrads can make an appointment with an academic success coach at any time during their academic careers. Students may meet with a coach one time or many times.

Make an appointment with an academic success coach: http://success.unl.edu/about#coaching
